## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Davidson. The reference discloses rim member 32, 16 (second case member) for supporting glass 44a, barrel (first case member) 10 containing movement and display 14 and contacting the underside of rim member 32, 16, first packing 22 between the rim member and barrel and screws 18 within the inner diameter of first packing 22 for fixing the barrel and rim.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 2-4, 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Davidson in view of Tanaka. Provision of a second packing for screws 18 would be an obvious means for additionally providing a seal for the screws. One skilled in the art would have this teaching from Tanaka showing packing 9 for a screw 10 attaching watch case components.

3. Claims 5-7 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
